

## An Expert Partnership Supporting Client Growth

### Partnering With Amplifi

Raising the standard for the submission of R&D tax credits, we pride ourselves on delivering a prudent, transparent and comprehensive R&D service.

Our expert team of tax advisors, qualified accountants, data analysts and industry experienced technical writers, ensures that we understand our clients' innovations, their expenditure and how they meet HMRC regulations.

This results in an uncomplicated process for our clients and partners, providing in-depth and defensible claims.

### Investor Benefits

- + Partnering with an R&D specialist with a demonstrable track record & understanding of the start-up & scale-up ecosystems.
- + A comprehensive, expert R&D service that produces defensible claims with full support in case of HMRC enquiry.
- + Lengthening client's cash runway by optimising R&D cash credit.
- + Increasing portfolio valuations by facilitating higher R&D outputs.

### Qualifying Questions

To qualify, an R&D project must fulfil the following criteria:

1. Incorporated company.
2. Attempted to develop a new or enhance an existing product, service or process.
3. Attempted to advance their field's overall knowledge.
4. At the outset, a competent professional was unable to readily resolve their uncertainty.
5. They commit financial resources into research, testing and analysis.

### Client Benefits

- + Additional tax deduction of up to 86% (SMEs) on all qualifying R&D expenditure.
- + Comprehensive expert service.
- + HMRC defensible claims.
- + Ongoing R&D support & advice.
- + More time to focus on innovation.
